

Prevora is a clear, medicated coating which helps manage harmful bacteria on your teeth & gum line.

Your healthcare provider applies Prevora quickly & painlessly, according to a treatment plan to improve your oral health.

Prevora patients commonly enjoy years of no cavities and no gum disease. They save money too.

Prevora is rated by Canadian Healthy Agers as “very important” and “very beneficial to my general health”.

Healthy aging requires a healthy mouth.

And to have a healthy mouth often requires Prevora.

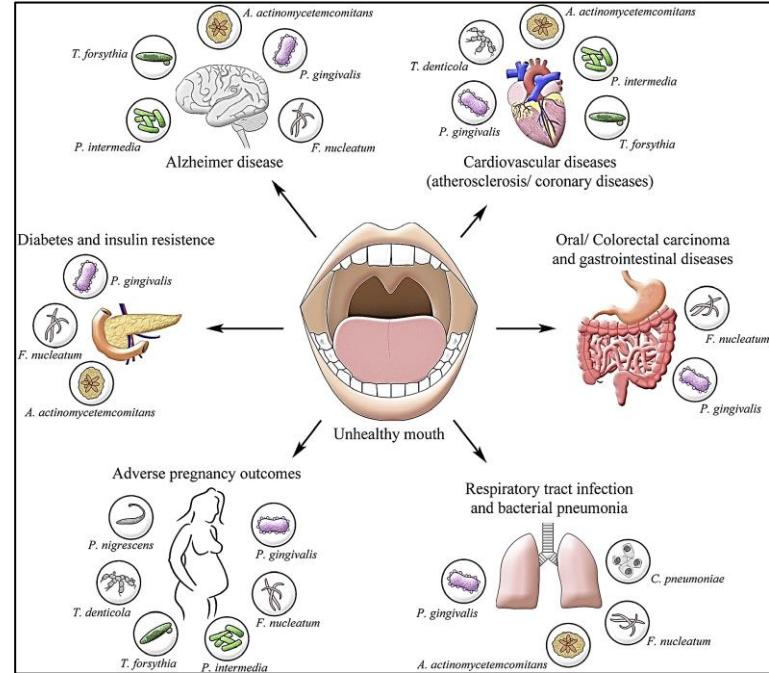

Cavities & gum disease are caused by harmful bacteria in your dental plaque.

These same bacteria increase the risks of unstable diabetes, frailty, dementia, certain cancers, high blood pressure, mood disorders & heart & respiratory problems.

Fortunately, a new treatment called Prevora can manage these harmful oral bacteria.

Prevora is quickly & painlessly applied to your teeth by your dental or medical provider.

Prevora is safe, effective & approved by Health Canada.
